

supply list: holiday planning binder

In Get Organized for the Holidays we'll be putting together a customized holiday plan. Part of this entails an optional project where you can create a holiday planning binder to hold your plan. Two projects are shared as part of a pre-workshop assignment. The first project uses a russell + hazel® signature binder and handmade binder tabs. A second project is also shown using a standard, office supply store vinyl binder, which is a bit less expensive and a bit less time consuming to put together. All the forms and worksheets to fill up your binder and create your plan are included with the workshop. They will be supplied as pdfs as part of the workshop's lessons.

The supply list below shows the products I used for my holiday binder, so you can get a feel for the additional investment for the binder project. If you have scrapbook supplies and tools on hand, I encourage you to use products from your stash!
